Summary of Issues and Voting Intentions for AGM/EGM

- Resolution 2: Ms Sparshott has >30 years' experience in FMCG (Fast Moving Consumer Goods) and retail in various consumer brands, and in various processes (all enumerated in the Notice of Meeting). Currently she is an NED of Carma Ltd and AACo, and Chairs the Vice-Chancellor's Industry Advisory Board at University of Technology Sydney.
- Resolution 3: There have been some changes to the remuneration framework, alterations to the "gateways" and to the scales of qualification, for the incentives payments. The proportion of total possible salary awarded as STI and LTI incentives has been lowered from STI and increased in LTI, which certainly aligns more with the hopes and priorities of long-term shareholders. The period for the LTI remains at three years, which ASA would prefer to be lengthened. It seems their main thrust forward planning is for five-year plans, even if only 3 year periods are used for remuneration assessments. Certainly, the rewards granted have been considerably reduced over the last couple of years, as can be seen in the graphs on p 43 of the Annual Report. Thus, the Executives' rewards are less, as are the shareholders' dividend distributions.
- Resolution 4: This Grant of Rights for the CEO is a consequence of Resolution 3, so should be similarly supported.

3. Matters Considered

Accounts and reports

Metcash is a wholesaler and distributor to extensive networks of independent retailers, under different trading chains in the three pillars of Food, Liquor and Hardware. They assist these independents to compete with the major supermarket, liquor and hardware chains. Unsurprisingly, there are various additions and subtractions to these stores, as well as a few company-owned stores, each year. This year, Food achieved 48% of total sales revenue; Liquor 16% and Hardware 37%. All results were similar to the previous trading year, despite many challenges and uncertainties for geopolitical and other reasons. It was thought that shopper preferences for local offers and familiarities were regarded favourably, especially in Food and Liquor.

Food had EBIT up 5.4% (ex tobacco), with tobacco sales improving slightly where enforcement was increasing. The IGA large-store network price gap narrowed to 2.1%. Food Service & Convenience also expanded. Liquor EBIT was down 3.8%, with weaker H1 but stronger H2 sales. Hardware & Tools EBIT was down 6.3%; with all segments stronger in H2. Integration of Total Tools and Independent Hardware Group has been completed, with scale benefits showing. Revenue for the first 7 weeks of FY27 showed gains, except for tobacco.

Financial performance

(As at FYE)	2026	2025	2024	2023	2022
NPAT (\$m)	279.1	283.3	257.2	259.0	245.4
UPAT (\$m)	268.8	275.5	282.3	307.5	299.6
Share price (\$)	2.82	3.22	3.94	3.90	3.9
Dividend (cents)	18.0	18	19.5	22.5	22.5
Simple TSR (%)	(7)	(14)	6.0	(14)	40.6
EPS (cents)	24.5	25.1	25.8	26.8	25.0
CEO total remuneration, actual (\$m)	2.646**	3.81	4.57	4.1*	6.01

Simple TSR is calculated by dividing the change in share price plus the dividend paid during the year, excluding franking, by the share price at the start of the year.

*CEO Total Rem in 2023 included a sign-on grant of \$0.63m, no actual LTI. CEO's Total Rem for FY24 contains components for STI for FY23 and FY24, and LTI for FY24. For FY22 there was a different CEO.

**CEO Total Rem received in FY26 is actual fixed rem for FY26 and components of deferred incentives from earlier, but scheduled to be awarded in FY26.

Governance and culture

Board Skills Matrix was in the Corporate Governance Report, whereas it might more appropriately be in the Annual Report. It is of definite interest to shareholders, since the Board members are our representatives at Board meetings, and their qualification and experience matter. Maybe it is telling that there were no Board members with "primary skill" in each of the skills of sustainability; regulatory engagement and corporate affairs; and community engagement oversight. Some of the other areas of competence had only 2 or 3 with a "primary skills" level. We trust that Directors are being further educated in such areas.

Key events

June 2024: Acquired Superior Foods, a foodservice distribution business, diversifying the Food business. During FY25, a 26% joint venture ownership in Dramet Holdings was sold. This involves Drakes Supermarkets in Queensland and South Australia. MTS will still supply the Drakes supermarkets in Queensland, with this contract extended by a further 5 years to June 2034.

Two consolidations of groups within the Pillars were accomplished:

Within Food, Campbells & Convenience combined with Superior Foods, making the Food Service & Convenience business.

Total Tools and the Independent Hardware Group merged.

Steve's Liquor warehouse (5 retail stores in Vic and 3 in Tas.) was acquired,

Acquired 75% of Holliman's Rural Pty Ltd.

Acquired additional stores, and additional interests in, various Total Tools stores.

The ongoing Project Horizon aims to reposition MTS as a modern, technology-led wholesaler. Completion of this was expected by end of FY25, but costs have risen and now completion is expected in FY27.

Logistics is simplified because fresh (short shelf life) food is largely supplied locally. This is a point of difference for MTS, which is regarded favourably by Food customers, as well as reducing logistics costs. Beer and wine are also largely local; spirits from overseas.

Illegal tobacco sales detracted from profits by around \$30m. Increased enforcement and new regulations are having a positive impact on sales.
